DIGITAL CORE
TECHNOLOGIES

CSR PROJECTS APPROVED BY THE BOARD

FY 2023-24

A. Background

The core purpose of Digital Core Technologies Private Limited is sustainable growth. This is achieved through the inclusion of all stakeholders, guided by a long-term vision, responsibility and compassion.

For any institution, stakeholders include not only employees, investors, customers, clients and vendors but also the wider ecosystem, including society and the environment. The Company recognises that sustainable growth is possible only when a conducive ecosystem exists for the organisation to operate and grow.

The Company's community-focused programmes aim to bring about positive societal change.

The Company's CSR initiatives focus on the following areas:

1. Education
2. Rural Development
3. Healthcare

The Company's CSR policy and initiatives outline its vision, mission, focus areas and key requirements in accordance with Section 135 and Schedule VII of the Companies Act, 2013. These initiatives will be implemented by the Company through the following

1. DCT SPaCE, the philanthropic arm of the company
2. Dr. Salim Ali Foundation, a charitable trust working towards sustainable development especially in the rural areas

B. List of Projects approved for FY 2023-24

1. Education

Project: YES (Youngsters Educational Support)

The project aims to provide scholarships to economically disadvantaged and deserving students pursuing education in schools and colleges. The selection of beneficiaries is undertaken in consultation with the respective school and college managements.

2. Rural development projects

Project: Sustainable Model village

The project aims to promote sustainable rural development by encouraging organic farming and environmentally friendly agricultural practices. It focuses on creating awareness and supporting the adoption of sustainable farming methods among farmers, with the broader objective of developing a model panchayat.
